Section 1. Identification

Product identifier Solvent-Based Sealer for Concrete | PE700603 • PE700604 • PE700605 • PE700606

Other means of identification None

Recommended use and restrictions on use Resin

Initial supplier identifier

Master Protective Coatings Inc.
1483 rue Michelin
Laval Québec H7L4S2
1-438-223-4628

Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666

Section 2. Hazard identification

Classification of hazardous product (name of the category or subcategory of the hazard class)

Flammable liquid (Category 2)
Skin irritation (Category 2)
Eye irritation (Category 2A)
Specific target organ toxicity – single exposure (Category 3)
Carcinogenicity (Category 2)
Hazardous to the aquatic environment – Chronic (Category 2)

Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

Danger
H225 Highly flammable liquid and vapour.
H315 Causes skin irritation.
H319 Causes serious eye irritation.
H335 May cause respiratory irritation.
H351 Suspected of causing cancer.
H411 Toxic to aquatic life with long lasting effects.
P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P240 Ground and bound container and receiving equipment.
P241 Use explosion-proof equipment.
P242 Use non-sparking tools.
P243 Take action to prevent static discharges.
P260 Do not breathe dust/fume/gas/mist/vapours/spray.
P264 Wash hands/nails/face thoroughly after handling.
P271 Use only outdoors or in a well-ventilated area.
P280 Wear gloves/protective clothing/eye protection/face protection.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P312 Call a doctor if you feel unwell.
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
P302+P352 IF ON SKIN, Wash with plenty of water for several minutes.
P333 + P313 IF SKIN irritation or rash occurs: Get medical attention.
P362+P364 Take off contaminated clothing and wash it before reuse.
P305 + P351 + P338 IF IN EYES, Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 If eye irritation persists: Get medical attention.
P308 + P313 IF exposed or concerned: Get medical attention.
P273 Avoid release to the environment.
P391 Collect spillage.
P370 + P378 In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish.
P403 + P233 + P235 Store in a well-ventilated place. Keep container tightly closed. Keep cool.
P405 Store locked up.
P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.

Other hazards known None

Section 3. Composition/information on ingredients

Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
t-Butyl acetate	540-88-5	15-40
4-Chlorobenzotrifluoride	98-56-6	15-40
Xylene	1330-20-7	7-13
Ethyl benzene	100-41-4	< 5
Acrylic resin	114512-63-9	10-30

* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).

Section 4. First-aid measures

Inhalation IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical attention if you feel unwell.

Ingestion IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.

Skin contact IF ON SKIN, Wash with plenty of water for several minutes. (15-20) SKIN irritation or rash occurs: Get medical attention.

Eye contact IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

Most important symptoms and effects (acute or delayed) Causes skin irritation. Causes serious eye irritation.

Indication of immediate medical attention/special treatment In all cases, call a doctor. Do not forget this document.

Section 5. Fire-fighting measures

Specific hazards of the hazardous product (hazardous combustion products)
Carbon oxides and other irritant/toxic gases and fumes.

Suitable and unsuitable extinguishing media
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish.

Special protective equipment and precautions for fire-fighters
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

Methods and materials for containment and cleaning up
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

Section 7. Handling and storage

Precautions for safe handling
Wear gloves/protective clothing/eye protection/face protection.
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Do not breathe dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)
Exposure limits: CAS 1330-20-7 ACGIH – TLV-TWA 100 ppm (STEL 150 ppm) & PEL-TWA 100 ppm; CAS 100-41-4 ACGIH – TLV-TWA 20 ppm & PEL-TWA 100 ppm; CAS 540-88-5 ACGIH – TLV-TWA 200 ppm;

Appropriate engineering controls
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. We recommend wearing chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact during all handling operations. We recommend wearing protective chemical splash goggles/safety glasses or other to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties

Appearance, physical state/colour Viscous liquid
Odour Characteristic
Odour threshold Not available
pH Not available
Melting/freezing point Not available
Initial boiling point/range Not available
Flash point 5-23°C closed cup
Evaporation rate Not available
Flammability (solids and gases) Not available
Upper and lower flammability/explosive limits Not available
Vapour pressure Not available
Vapour density Not available
Relative density 0.99
Solubility Not available
Partition coefficient - n-octanol/water Not available
Auto-ignition temperature Not available
Decomposition temperature Not available
Viscosity Not available
VOC 123 g/L
Other None known

Section 10. Stability and reactivity

Reactivity
Does not react under the recommended storage and handling conditions prescribed.

Chemical stability
Stable under the recommended storage and handling conditions prescribed.

Possibility of hazardous reactions
Accumulation of flammable/explosive vapours.

Conditions to avoid (static discharge, shock or vibration)
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take action to prevent static discharges.

Incompatible materials
Oxidizing materials; etc.

Hazardous decomposition products
None known

Section 11. Toxicological information

Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)
Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation. Suspected of causing cancer.

Symptoms related to the physical, chemical and toxicological characteristics
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing; Respiratory tract irritation, coughing, shortness of breath, dizziness, drowsiness, nausea and headaches.

Delayed and immediate effects (chronic effects from short-term and long-term exposure)
Skin Sensitization – No data available;
Respiratory Sensitization – No data available;
Germ Cell Mutagenicity – No data available;
Carcinogenicity – Ingredient listed by IARC, ACGIH, NTP or OSHA;
Reproductive Toxicity – No data available;
Specific Target Organ Toxicity — Single Exposure – Possible;
Specific Target Organ Toxicity — Repeated Exposure – No data available;
Aspiration Hazard – No data available;
Health Hazards Not Otherwise Classified – No data available.

Numerical measures of toxicity (ATE; LD_{50} & LC_{50})
CAS 1330-8-20-7 LD_{50} Oral - Rat - 3523 mg/kg; LC_{50} Inhalation - Rat - 4 h – 5000 ppm; CAS 100-41-4 LD_{50} Oral - Rat - 3500 mg/kg; LC_{50} Inhalation - Rat - 4 h – 4000 ppm; CAS 540-88-5 LD_{50} Oral - Rat - 4100 mg/kg; CAS 98-56-6 LD_{50} Oral - Rat - 5546 mg/kg;
ATE not available in this document.

Section 12. Ecological information

Ecotoxicity (aquatic and terrestrial information) No data available for this product

Persistence and degradability No data available

Bioaccumulative potential No data available

Mobility in soil No data available

Other adverse effects Toxic to aquatic life with long lasting effects.

Section 13. Disposal considerations

Information on safe handling for disposal/methods of disposal/contaminated packaging
Dispose of contents/container into safe container in accordance with local, regional or national regulations.

Section 14. Transport information

UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations
UN1866; RESIN SOLUTION; Class 3; PG II

UN number; Proper shipping name; Class(es); Packing group (PG) of the 49 CFR (USA)
UN1866; RESIN SOLUTION; Class 3; PG II

UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)
UN1866; RESIN SOLUTION; Class 3; PG II

UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)
UN1866; RESIN SOLUTION; Class 3; PG II

Special precautions (transport/conveyance) May also be shipped as a LIMITED QUANTITY in accordance with TDG.

Environmental hazards (IMDG or other) Marine Pollutant

Bulk transport (usually more than 450 L in capacity) Possible

Section 15. Regulatory information

Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).

Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL

Safety/health/environmental outside regulations specifics
United States OSHA information: This product is regulated according to OSHA (29 CFR).
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.
United States TCSA information: Refer to the ingredients listed in Section 3.
National Fire Protection Association (NFPA):
HEALTH: 1 FLAMMABILITY: 3 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.
HAZARD SCALE: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe
Proposition 65: This product does not contain a chemical known to the State of California to cause cancer or other reproductive harm.

Section 16. Other information

Date of the latest revision of the safety data sheet February 27, 2020 Version 1 (NSS ENTREPRISE INC.)
